

STUDLESS WINTER TYRE

ICE BLAZER WSL2

PERFORMANCE RATINGS:

The **ICE BLAZER WSL2** is a studless winter tyre, providing excellent slush, snow, and wet traction in cold climate conditions, while delivering a quiet and comfortable ride on dry roads.

- Green technology: Extensive use of environmentally friendly materials that meet European REACH requirements.
- Special tread formula compounds allows the rubber to maintain flexibility in extreme cold temperatures for maximum performance potential. This improves handling and overall safety for winter weather conditions.

Unique Groove Design:
The L-shaped grooves are specifically designed to enhance grip on snow, slush, and water without compromising road noise.

Outer Tread Block Design:
Optimised to improve self-cleaning capabilities while also maximising stability and overall grip in winter weather conditions. Minimised noise emissions.

Multi-directional high density siping:
Engineered to maximise directional grip on snow and ice while also minimising road noise.
