

# Sailun's Atrezzo ZSR in Peak Performance!

The Achna Speedway course in Famagusta, Cyprus was the setting for a punishing range of track trials for the ultra-high performance Atrezzo ZSR passenger car tyre.

Held on March 26<sup>th</sup>, the event was hosted by CHR. Kapodistrias and Sons Ltd, Sailun's main Cypriot distributor for both passenger car and truck tyres. Bringing together representatives from Sailun, Kapodistrias colleagues and motoring journalists, the trials were designed to test the ZSR's handling and abilities in different situations.

The ZSR delivered an outstanding performance, impressing the journalists who had the opportunity to experience its agility and road-holding in several different vehicles along the Achna Speedway's 2.2 kilometre course.

For Thomas Jang, Sailun's Product Development Specialist – who attended the event and gave a short presentation on the Sailun organisation – it was also an opportunity to get real-time feedback from the drivers: "Sailun's product range is founded on extensive research and development and it's rewarding to see that put into practice. We're continually looking at ways to make even greater improvements, so events like this help us shape the design of future tyre patterns."

Executive Director, Marios Kapodistrias added – "We were delighted to welcome so many trade press representatives, as well as Thomas, to the event. We were able to demonstrate the excellent performance capability of the Atrezzo ZSR first-hand – the experience of driving vehicles fitted with the tyres was second-to-none."
